

# Séance d'information HES-SO sur les Actions COST et SPIRIT du FNS

Stephanie Hoppeler

Georges Klein

SWISS NATIONAL SCIENCE FOUNDATION

# Contents

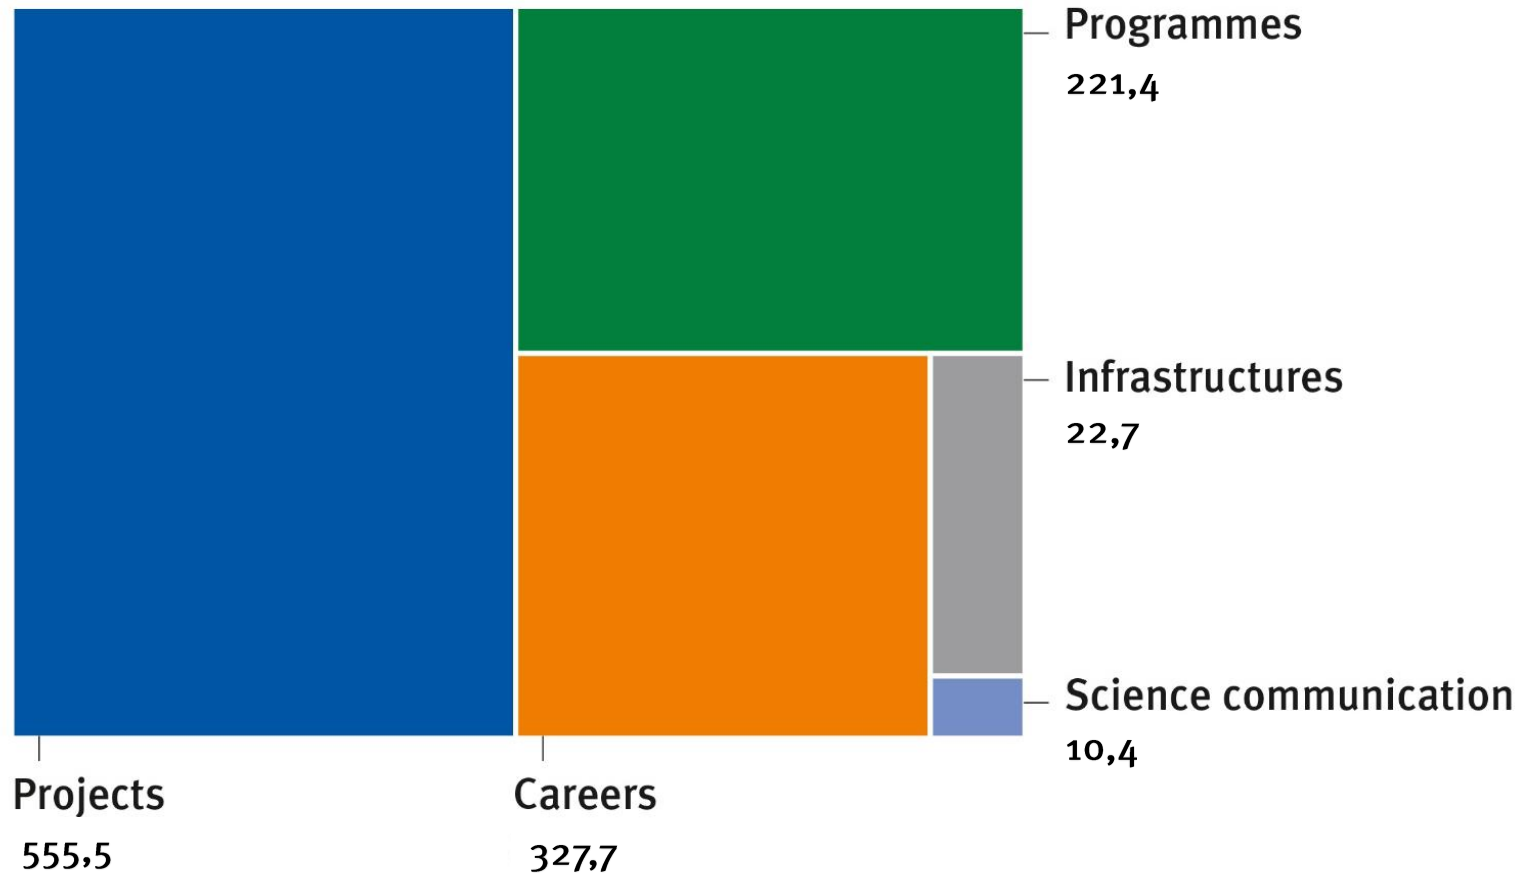

- The SNSF
- SNSF international co-operation strategy
- Funding schemes
  - Projects
  - Supplementary measures
  - Careers
  - Programmes
  - Infrastructures
  - Science communication

# Mandate of the Confederation to the SNSF

The SNSF focuses on the funding of:

- excellent research projects
- highly qualified young researchers
- research infrastructures which serve the development of fields of expertise in Switzerland and which are not within the remit of the higher education research centres or the Confederation
- international research cooperation in accordance with the Confederation's relevant goals and measures

# The SNSF in figures

**Funding by scheme**  
Approved amounts in CHF and as share of total funding amount

**1,138**  
CHF million

**16,300**  
Researchers in projects

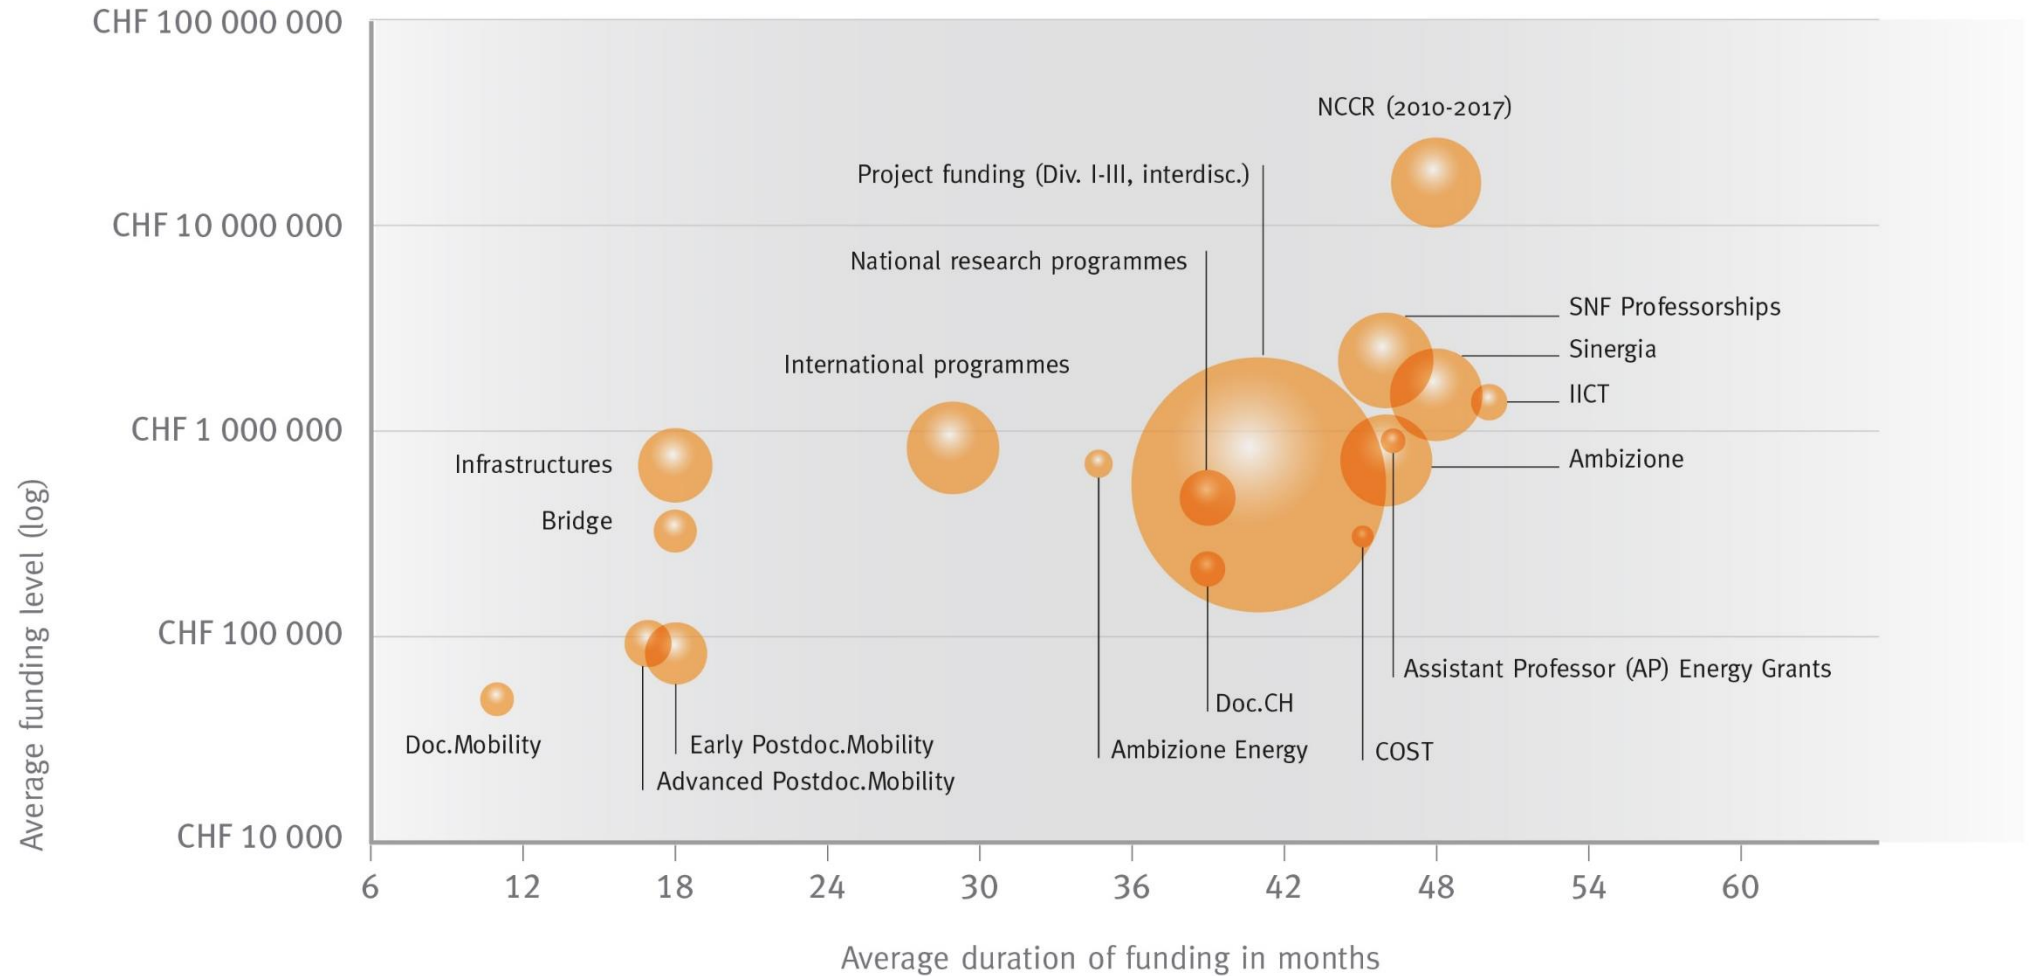

# Switzerland – Key facts

## **International higher education and research**

- 25% of students are from abroad
- 55% of PhD candidates are from abroad
- 39% of teaching staff at universities are from abroad

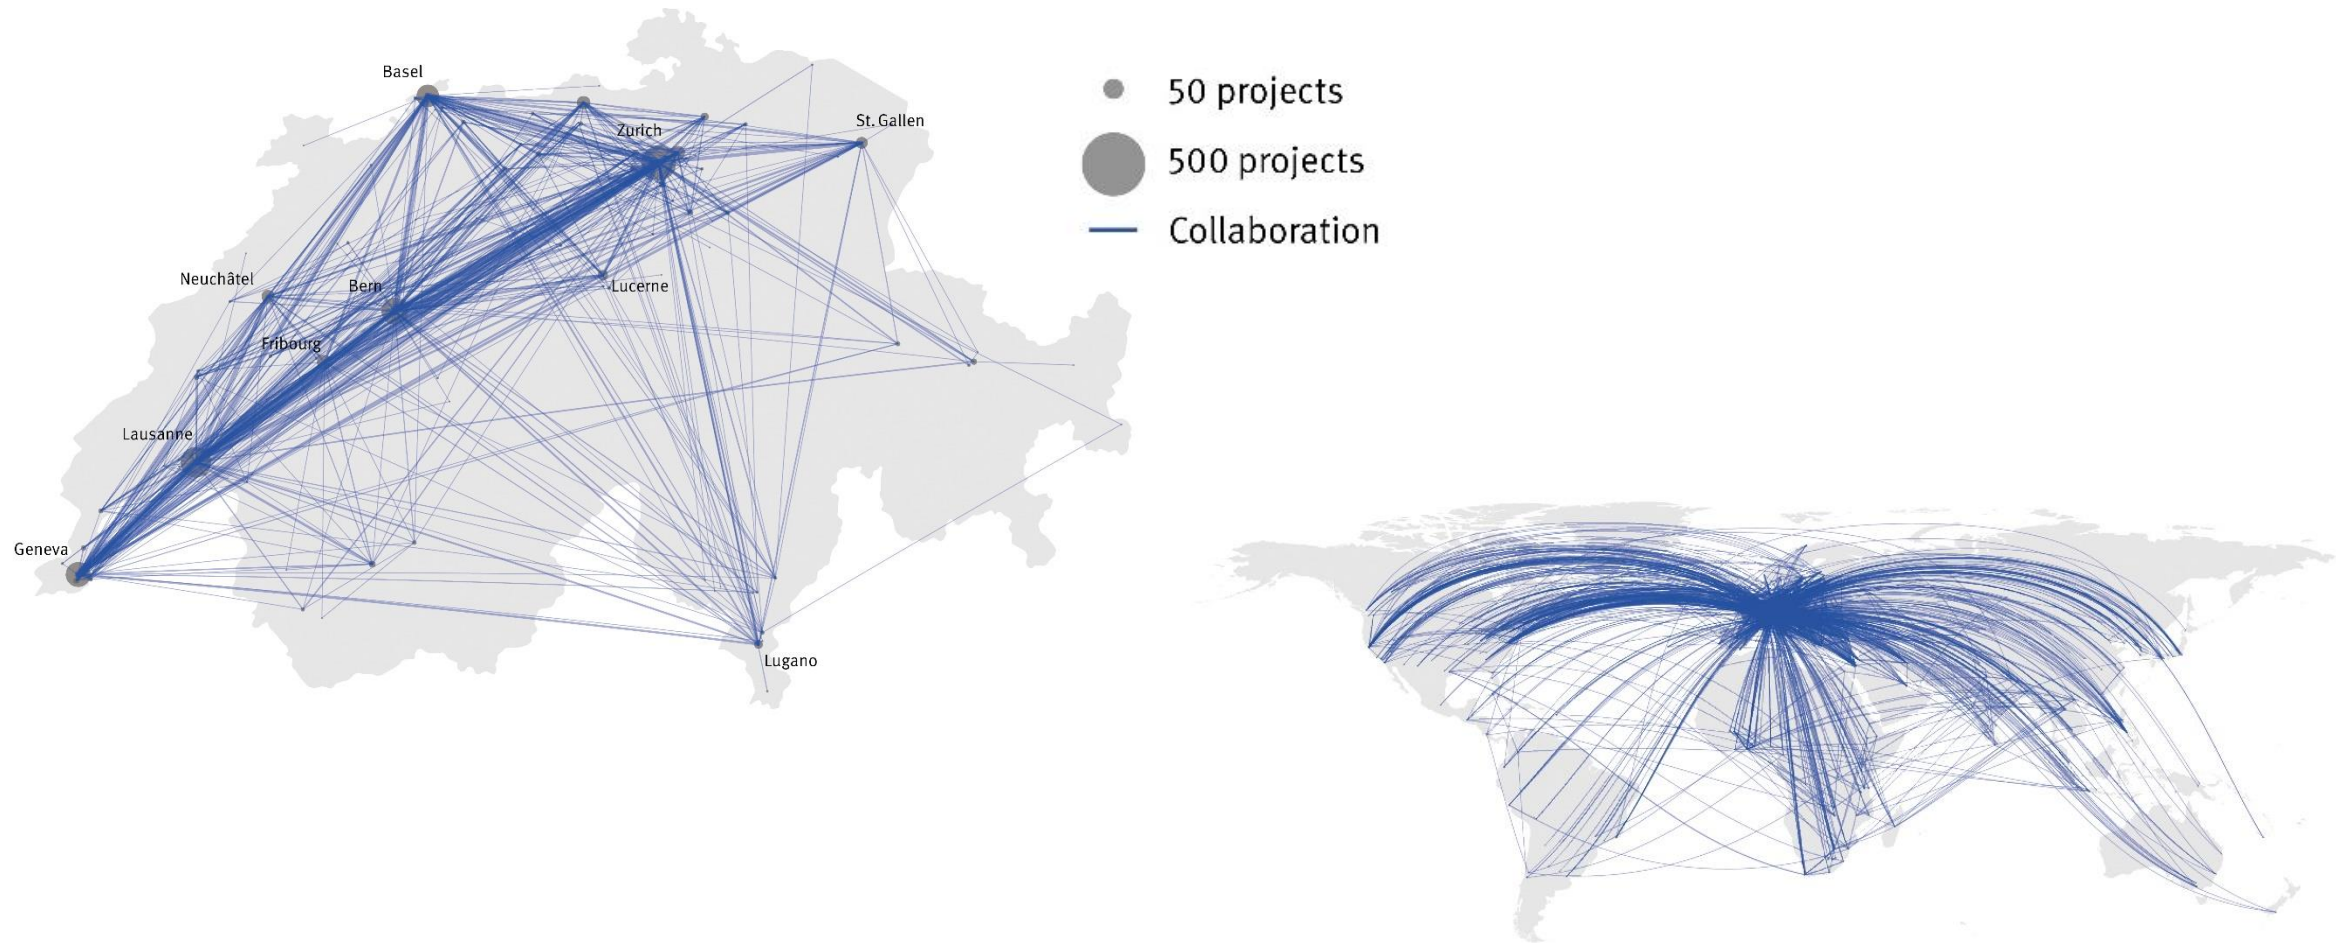

# Approved funding – average grant amount and duration by funding scheme

Data 2017

# Collaboration at Swiss and international level

Data 2017

# SNSF international co-operation

## International cooperation

## Ongoing SNSF projects

**6,500**

Data 2018

# International cooperation strategy

## Objectives of the SNSF's international cooperation activities

- **Global approach:** connect researchers globally
- **Multilateral knowledge transfer:** promote brain circulation and the resulting exchange of ideas
- **Academic freedom:** support the principle of research freedom

# International cooperation strategy

## Basic principles

- Scientific excellence
- Free choice of topics, interdisciplinary collaboration and scientific autonomy
- High ethical standards
- Simple procedures and multilateral approaches, including international collaboration and mobility into regular research funding whenever possible
- Free access to publications and data

# Programmes for international collaboration

## **Bilateral programmes of the Swiss Confederation**

Bilateral research cooperation programmes with Argentina, Brazil, China, India, Japan, Russia, South Africa and South Korea

## **Swiss Programme for Research on Global Issues for Development (r4d programme)**

Joint funding initiative by the Swiss Agency for Development and Cooperation (SDC) and the SNSF

## **Participation in multilateral research Initiatives**

COST, ERA-NETs, Joint Programming Initiatives (JPIs), etc.

Growing  
ideas  
through  
networks

# **COST** **European Cooperation in Science and Technology**

Georges Klein (Swiss COST representative)

# Contents

- COST
- COST Actions & ways for scientists to get involved
- What the SNSF offers: support & funding for projects

# What is COST?

- Mission: **COST provides networking opportunities for researchers and innovators in order to strengthen Europe's capacity to address scientific, technological and societal challenges**
- **The three strategic priorities:**
  - 1) Promoting and spreading excellence
  - 2) Fostering interdisciplinary research for breakthrough science
  - 3) Empowering and retaining young researchers and innovators
- COST funds bottom-up, excellence-driven, open and inclusive **networks (=Actions)** for peaceful purposes in all areas of science and technology. COST only funds networking activities
- COST itself is mainly funded by H2020 with €300M for 7 years and managed by the COST Administration in Brussels

# COST – over 45 years supporting collaborations

## COST Association:

- 38 Full Members

Albania, Austria, Belgium, Bosnia and Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, The Republic of Moldova, Montenegro, The Netherlands, The Republic of North Macedonia, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, **Switzerland**, Turkey, and United Kingdom

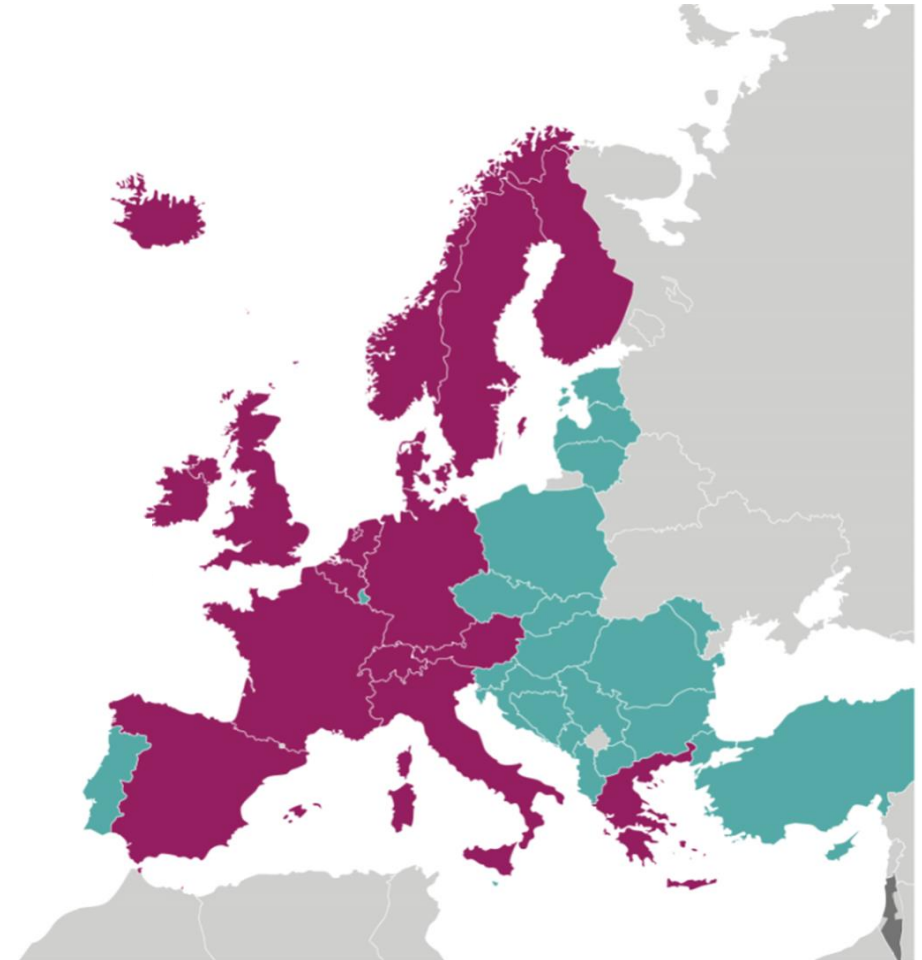

- 1 Cooperating Member

Israel

- Near Neighbour Countries

Algeria, Armenia, Azerbaijan, Belarus, Egypt, Georgia, Jordan, Kosovo\*, Lebanon, Libya, Morocco, the Palestinian Authority, Russia, Syria, Tunisia and Ukraine

\*This designation is without prejudice to positions on status, and is in line with UNSCR 1244/1999 and the ICJ Opinion on the Kosovo declaration of independence.

- COST Full Members
- COST Full Members (ITCs)
- COST Cooperating member

# What is a COST Action?

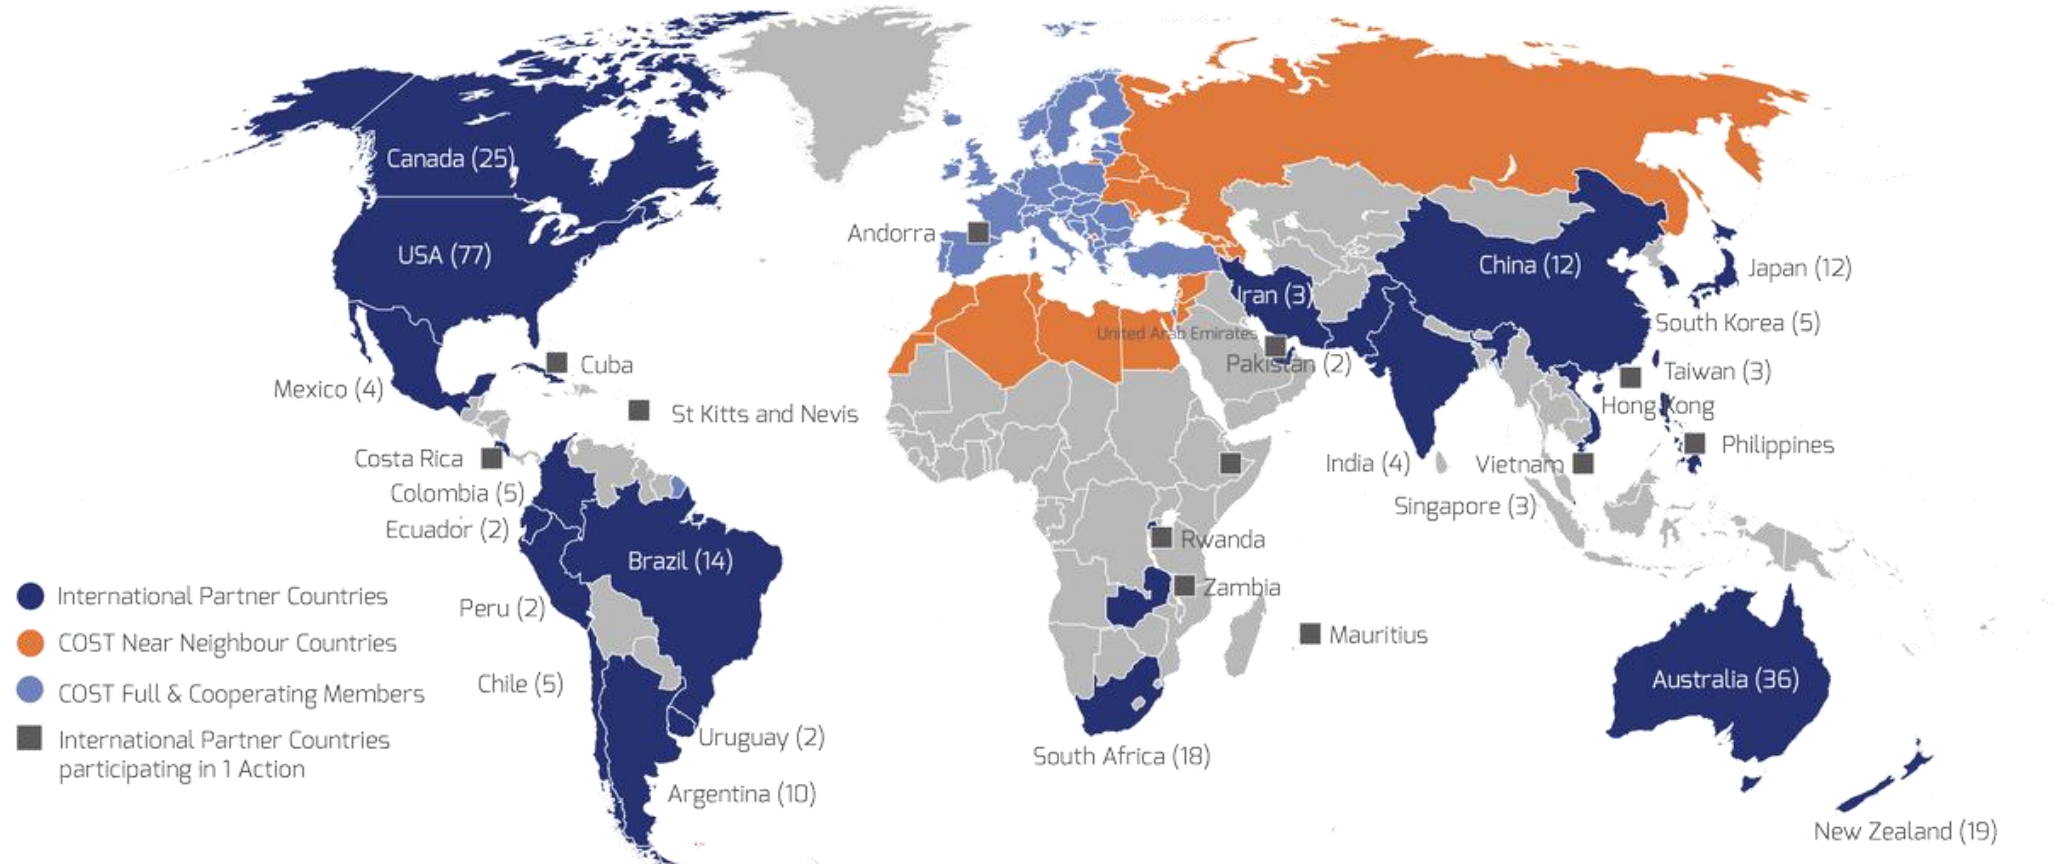

## **COST Actions**

- Support networks collaborating on a topic of interest to at least 7 Full/Coop. Members (50% ITC)
- last 4 years based on a common Memorandum of Understanding
- have each ~ EUR 130'000 funding per year
- involve on average 28 Member countries

## **A COST Action is open to all**

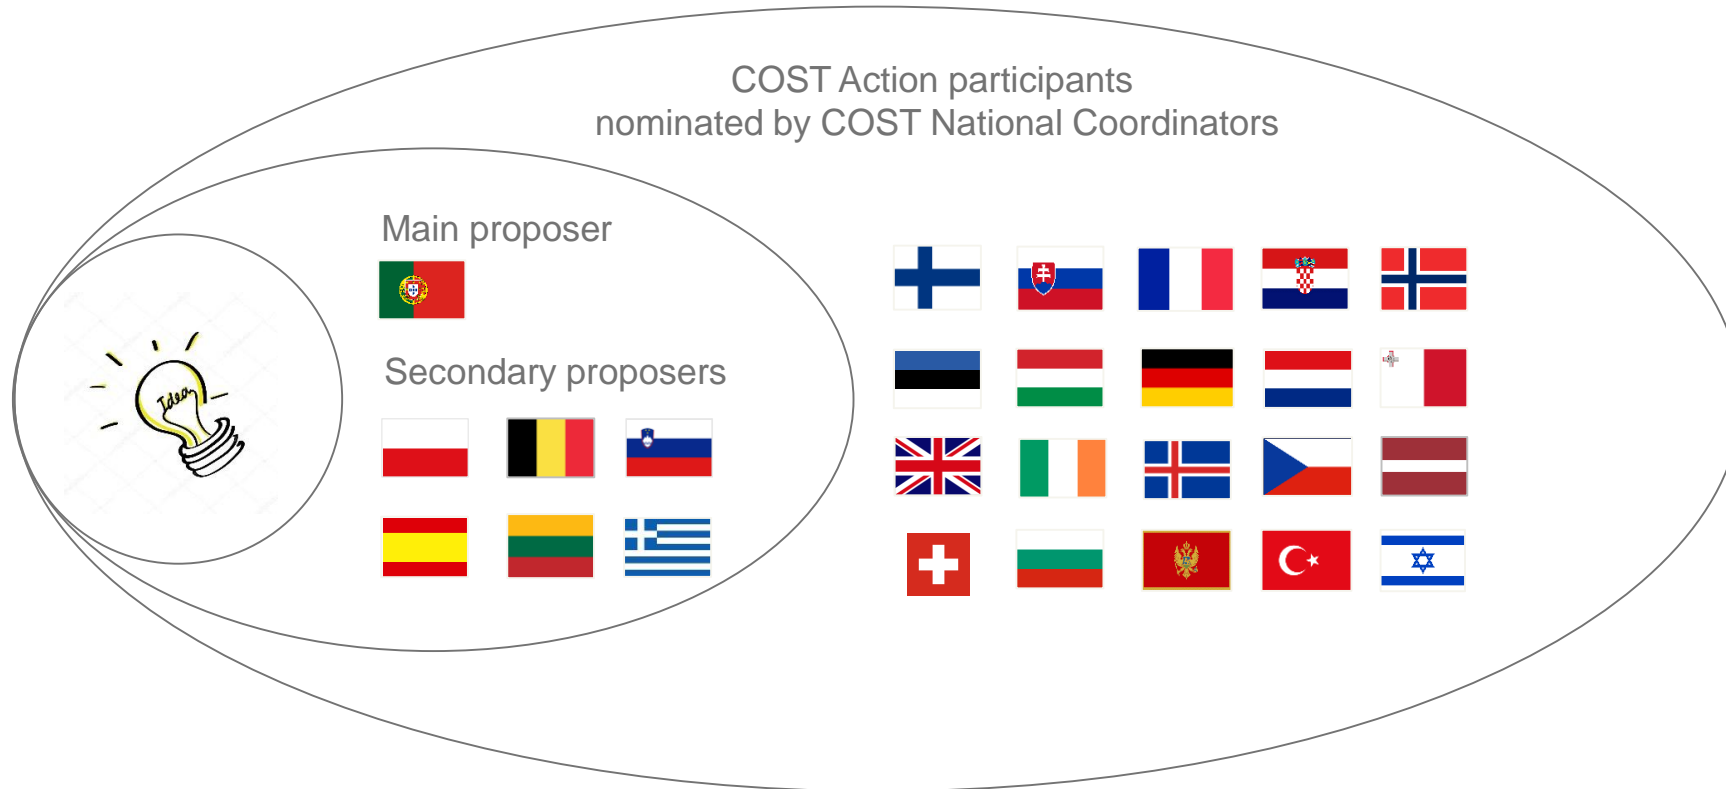

- researchers, scientists, scholars and innovators of all career stages
- science and technology fields (including SSH)
- institutions (academia, public institutions, SME/industry, NGO, European/international organisations, etc.)
- COST Members and non-COST Members on the basis of mutual benefit

# International Partner Countries

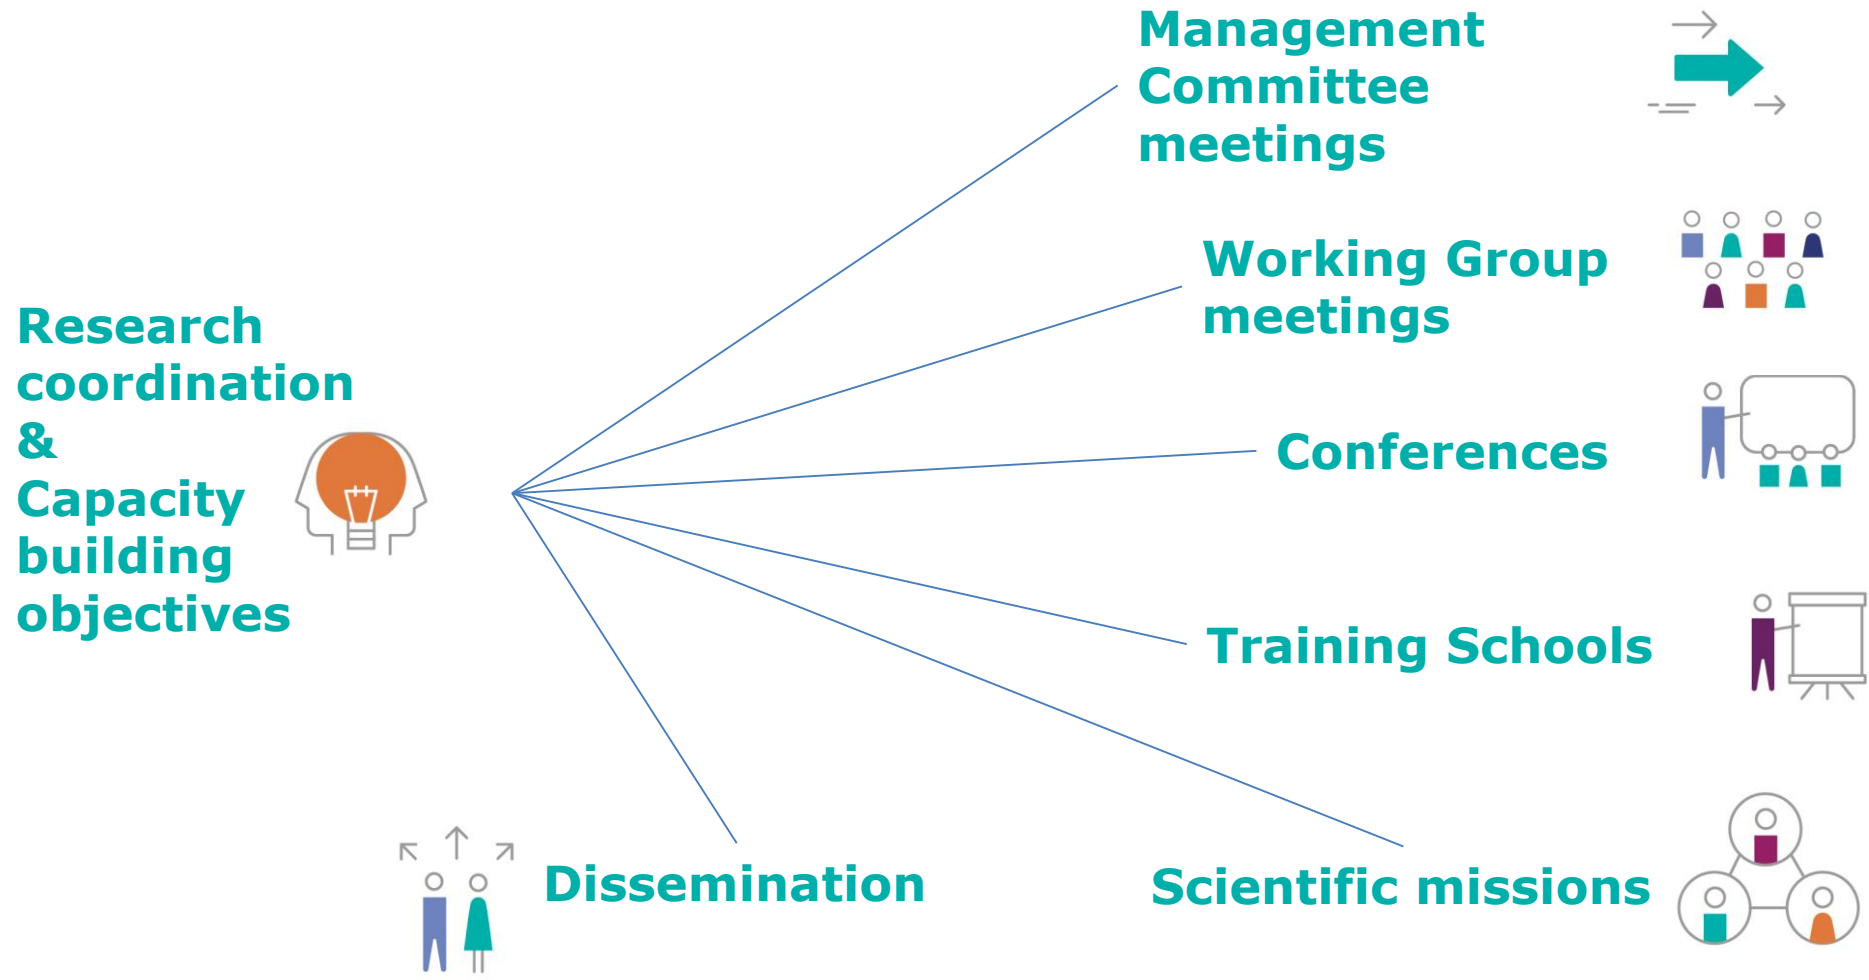

# How it works?

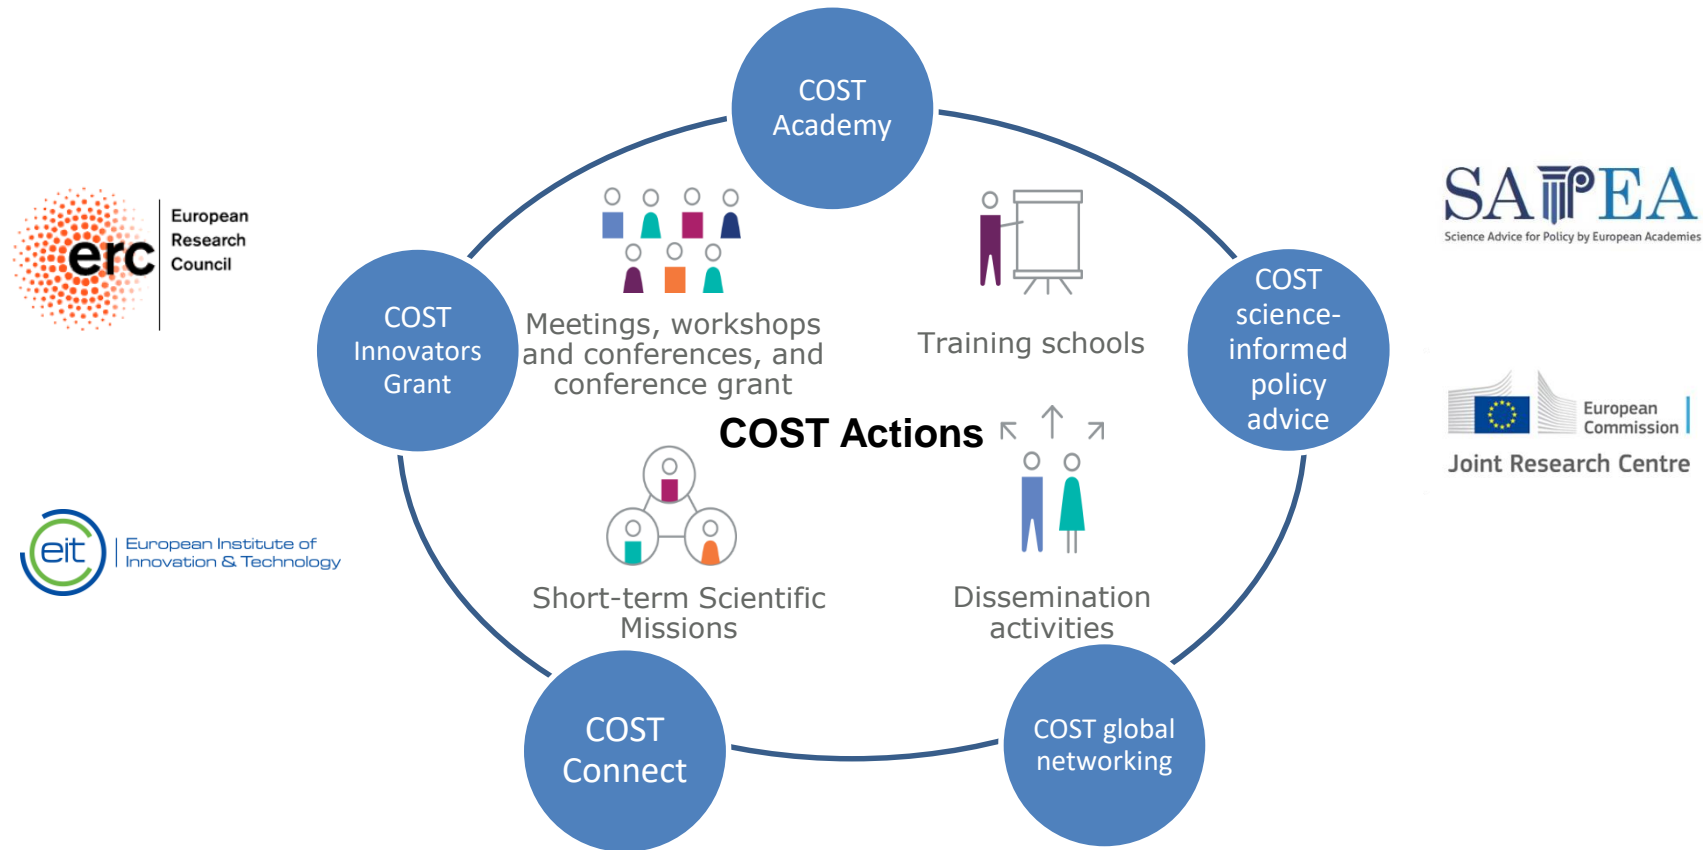

Currently 90% of all ongoing Actions have a Swiss-based participant

# Networking tools

# Implementing COST's Strategic Priorities

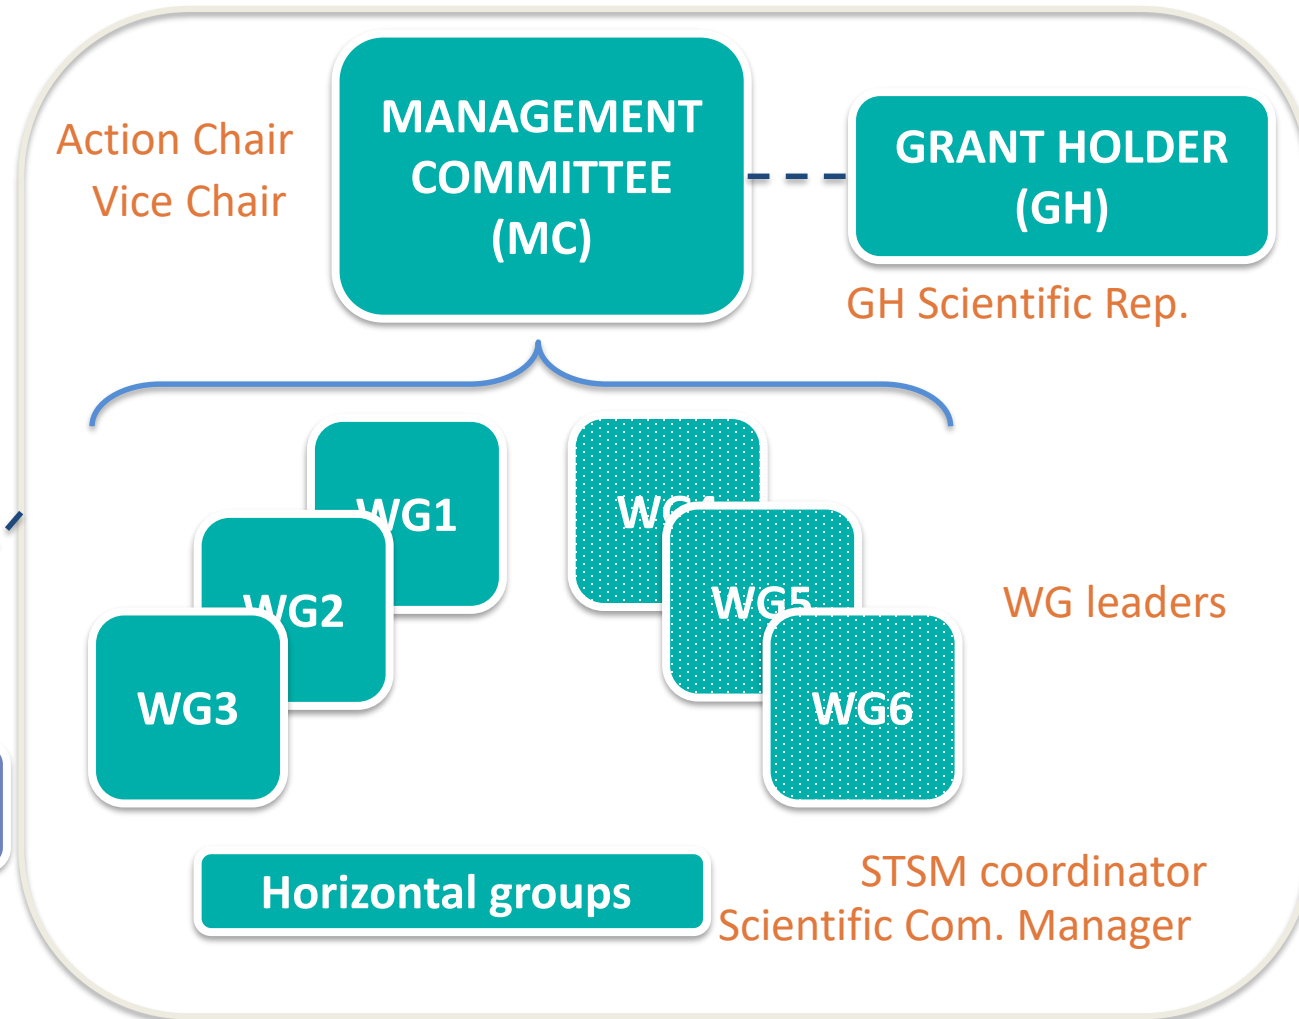

# COST key figures of 2018

COST: THE networking tool in the ERA and the pre-portal to other funding schemes

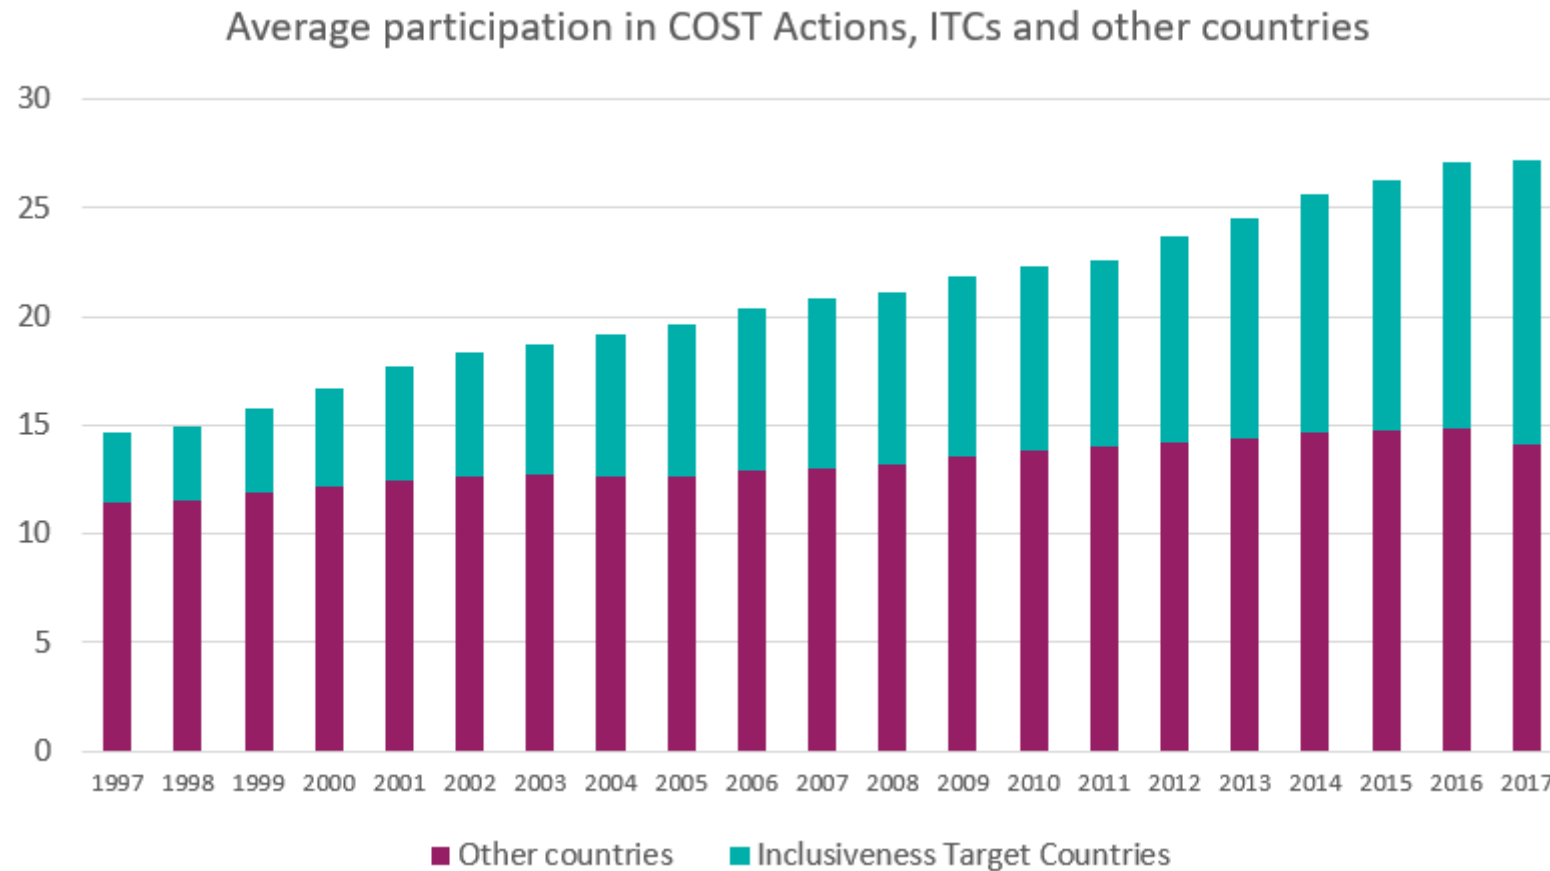

# COST Action Structure & Positions

## Positions per country

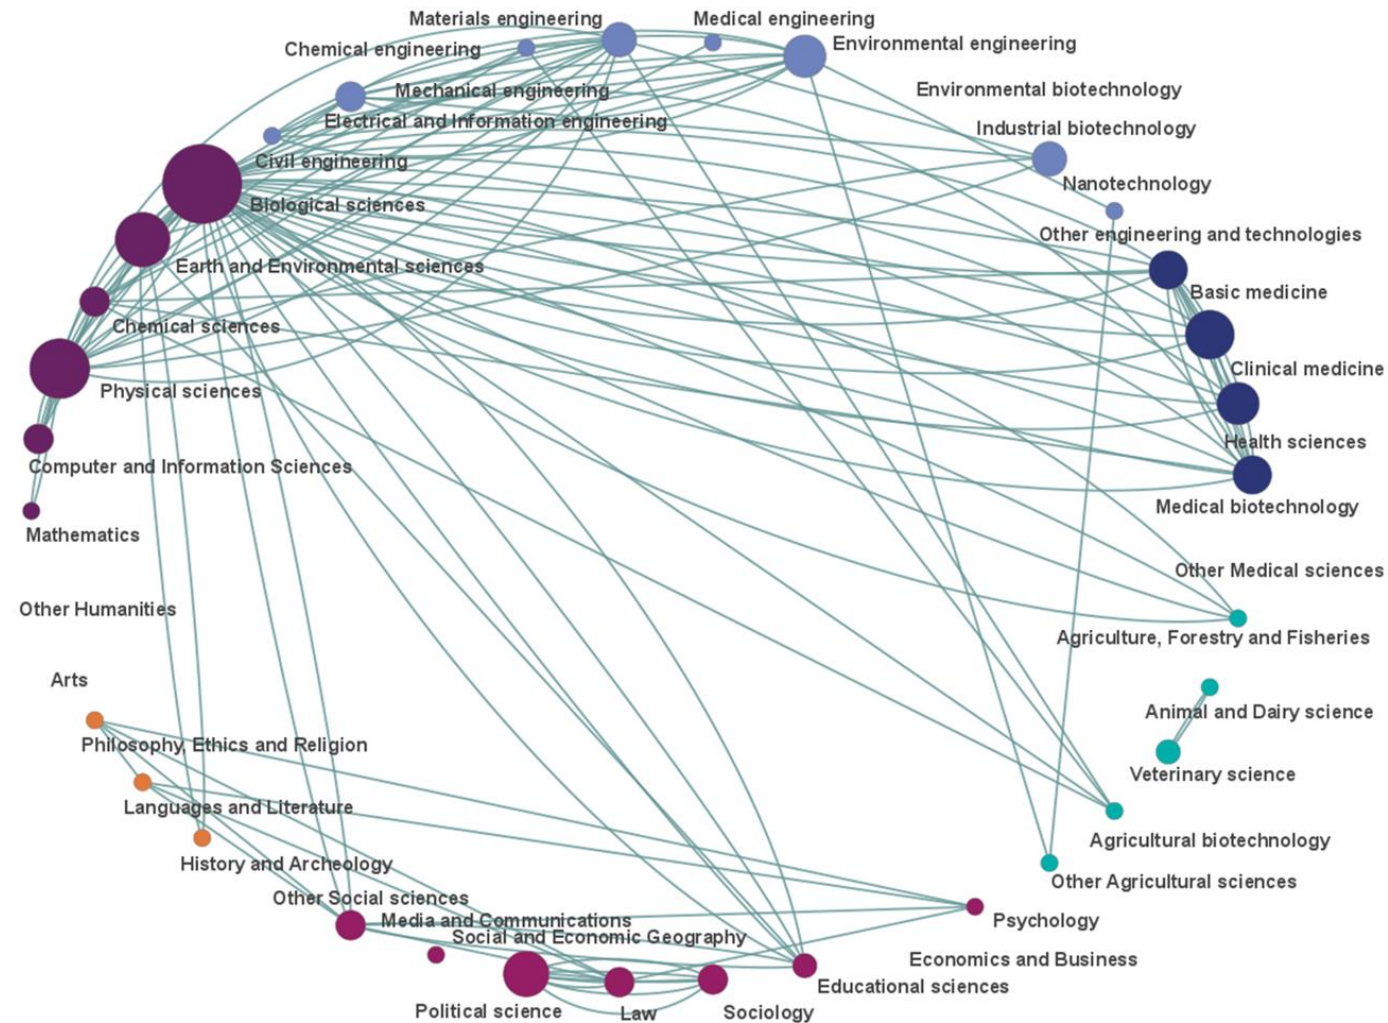

- 2 MC positions
- 3 MC substitutes
- Collaborator of MC
- Evaluation panel

# Promoting and spreading excellence

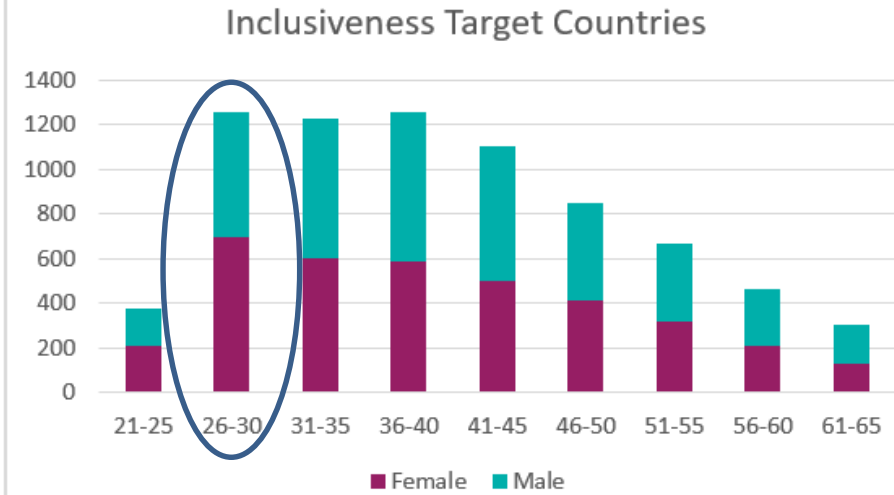

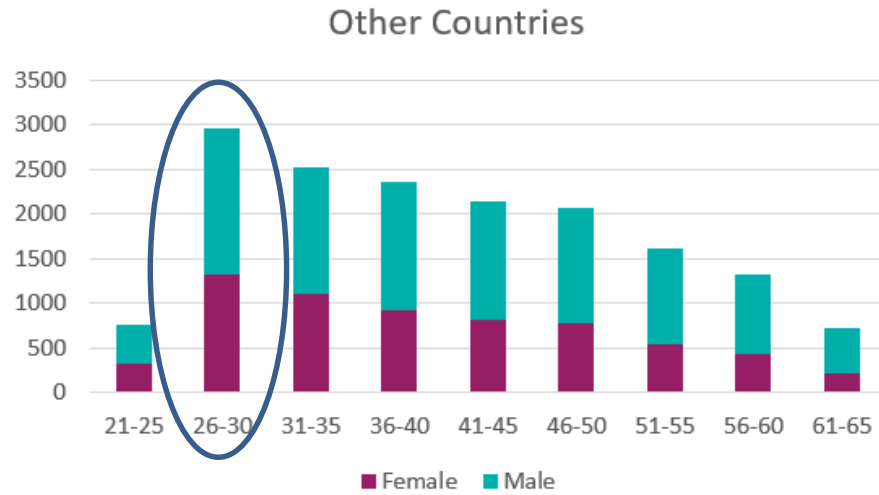

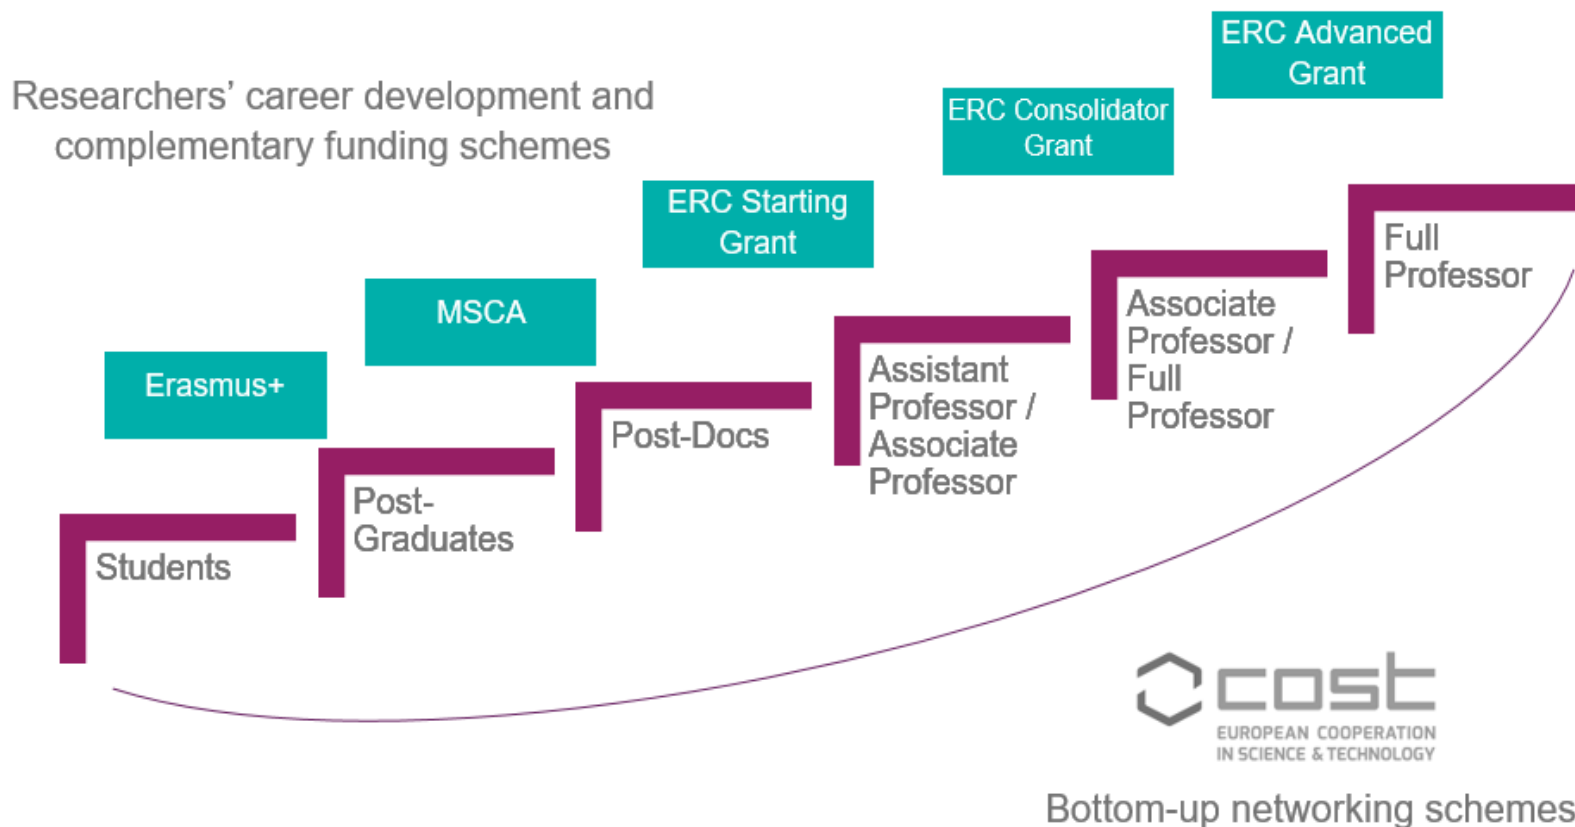

# Fostering interdisciplinary research for breakthrough science

# Boosting careers of young researchers

# Boosting careers of young researchers

# COST as pre-portal to ERA

## Horizon 2020 applications reported by finished COST Actions

Total Actions with  
finished Final Action  
Report

114

Submitted H2020  
proposals reported

392

Approved H2020  
projects reported

131

Success rate

33 %

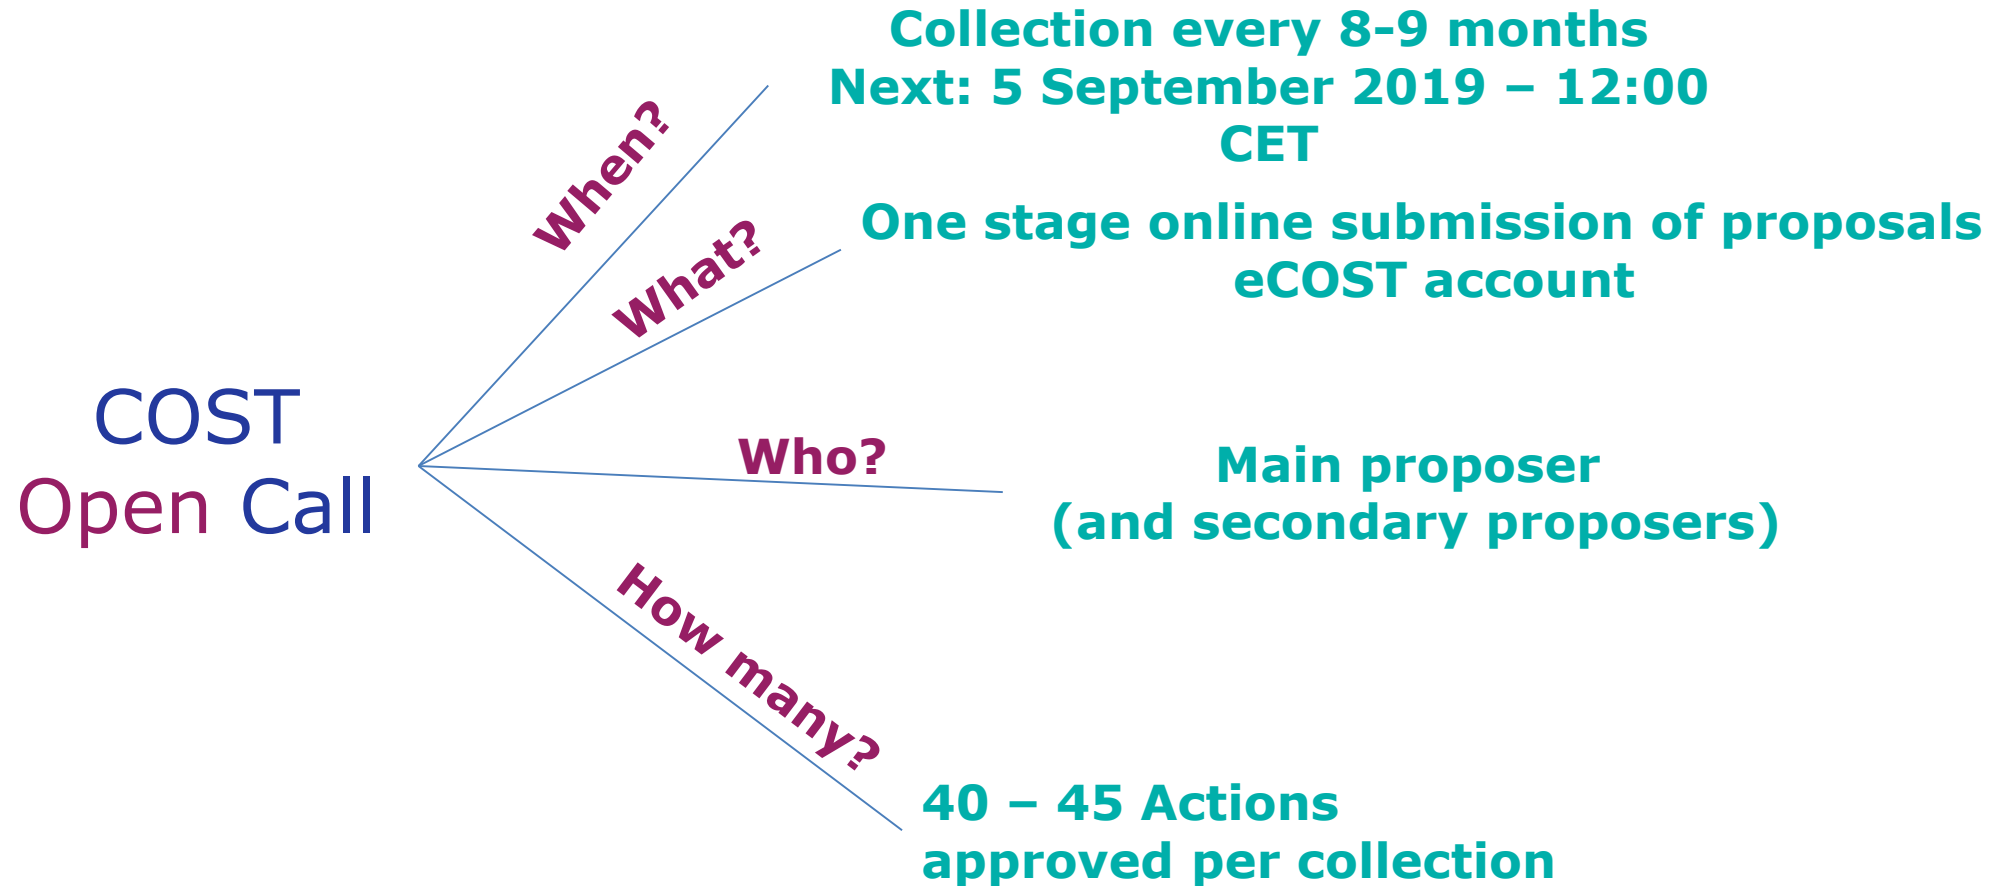

# Participation of SMEs

Participation of SMEs allows COST Actions to:

- widen the network
- close the TRL gap
- have access to new perspectives and knowledge
- get insights in real-life applications
- redefine research questions
- facilitate access to policy-makers (Business Associations)

# How to apply for a COST Action

# Evaluation criteria for COST Actions

a.

<b>S&amp;T EXCELLENCE</b>	<b>NETWORKING EXCELLENCE</b>	<b>IMPACT</b>	<b>IMPLEMENTATION</b>
- Soundness of the Challenge - Progress beyond the state-of-the-art	- Added value of networking in S&T Excellence - Added value of networking in Impact	- Impact to science, society and competitiveness, potential for innovation/ breakthrough - Measures to maximise impact	- Coherence and effectiveness of the work plan

b. COST Inclusiveness policy

c. Applied on equal steps:

i. COST Early Career Investigators policy

ii. Compliance with COST Gender balance policy

d. Balanced COST Actions' portfolio and promoting interdisciplinarity

# COST in Switzerland in a nutshell

Roles of the SNSF (Annemarie Renier & Georges Klein)

- Full member in the **Committee of Senior Officials (CSO)**: decision-making body as General Assembly of the COST Association
- **COST National Coordinator (CNC)**
  - Advise and inform scientists and institutions on COST: Actions, open participation opportunities, proposals, calls, ...
  - Nominate Review Panel members, but no involvement in the evaluation of Action proposals
  - Nominate national members to Action Management Committees (MC) accepting the Actions Memorandum of Understanding (MoU)
- Organisation of **yearly calls for research projects** associated with COST Actions

# SNSF project funding associated with COST Actions

## Call for COST Projects in Switzerland

- COST does not fund research itself, but supports networking
  - Research funding has to be provided by national funding sources
- The SNSF organizes yearly calls for researchers based in Switzerland who are actively involved in *recently* approved COST Actions
  - Project duration up to 4 years
  - Funding up to CHF 320'000 for 4 years
  - 12 pages research plan
  - Project partners from abroad are welcome
  - Typical eligible costs for SNSF-projects, but no equipment, no overhead
  - Evaluation by dedicated evaluation panel

## 3 complementary “widening” measures managed by Euresearch

(1) Teaming (institutional building)

(2) ERA chairs (bringing excellence to institutions)

(3) Twinning (institutional networking)

For all three Measures: the coordination has to be by the Widening country

Switzerland is eligible for participation and funding but not coordination

# SPiRiT

## **S**wiss **P**rogramme for **I**nternational **R**esearch by Scientific **I**nvestigation **T**eams

- Collaborative projects
- Researchers in Switzerland and in partner countries
- 2-step evaluation process
- No thematic restrictions
- Project duration 2-4 years

# Aims

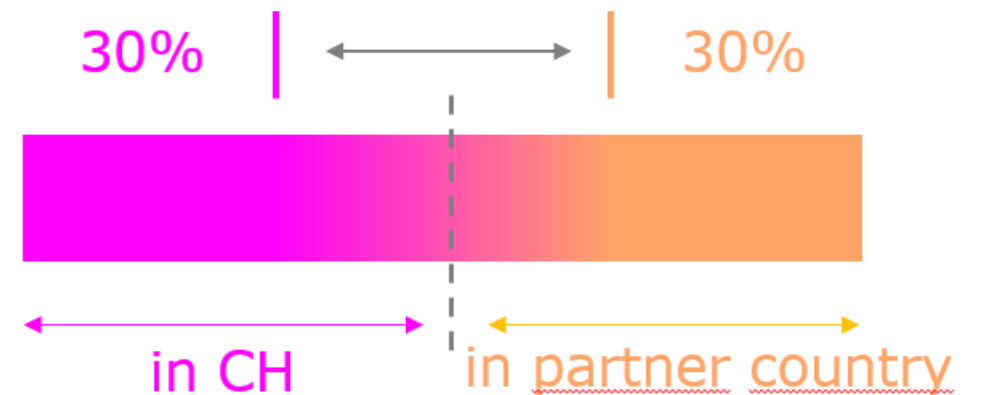

- Foster cross-border collaboration without disciplinary restrictions
- Provide more opportunities for researchers in Switzerland to collaborate with partners in many countries around the world
- Promote gender awareness and equal opportunities
- Contribute to the increase of research capacity in Switzerland and abroad

# Duration and Budget

- 2 to 4 years
- Maximum amount: CHF 500'000
- Minimum amount: CHF 50'000
- 30% rule
- Eligible costs:
  - Like in project funding
  - No applicants' salaries in Switzerland and/or in the partner countries

# Research teams

- 2 to 4 applicants
  - Applicant 1: researcher in Switzerland
  - Applicant 2: researcher in a partner country
  - (Applicants 3-4: researchers in Switzerland or in a partner country)

# Partner countries

- selection based on list of countries receiving development assistance, issued by the Development Assistance Committee of the OECD
- Exceptions
  - Member states of the European Union
  - Countries associated to Horizon 2020, the European Union's 8th Framework Programme for Research and Innovation (2014-2020) or subsequent programmes
  - Countries collaborating on a bilateral call with the SNSF
- Complete list available on [www.snsf.ch/spirit](http://www.snsf.ch/spirit)

# Eligibility

- Requirements as in project funding, for applicants in Switzerland and abroad
- Only 1 SPIRIT grant per person and period for all applicants
- Compatible with project funding applications or grants
- No overlap with Ambizione or PRIMA grants
- Eccellenza grantees and SNSF professors may submit a SPIRIT application 2 years after starting the Eccellenza grant or SNSF professorship at the earliest.

# Evaluation criteria

- scientific relevance
- originality of the aims and objectives
- suitability of the methodology, feasibility
- track record and expertise of the researchers
- complementarity of the research partners
- contribution to increasing scientific capacities in the relevant research field
- contribution towards raising gender awareness and promoting equal opportunities.

# Evaluation procedure

- If proposals are deemed to be equal in terms of their scientific quality, proposals submitted by female applicants, or proposals that show better gender awareness, are given priority
- 2 phases: pre-proposals and full proposals
- Only full proposals are peer reviewed
- Evaluation commission: Pre-proposals and full proposals are evaluated by the SPIRIT Evaluation Commission (SEC)

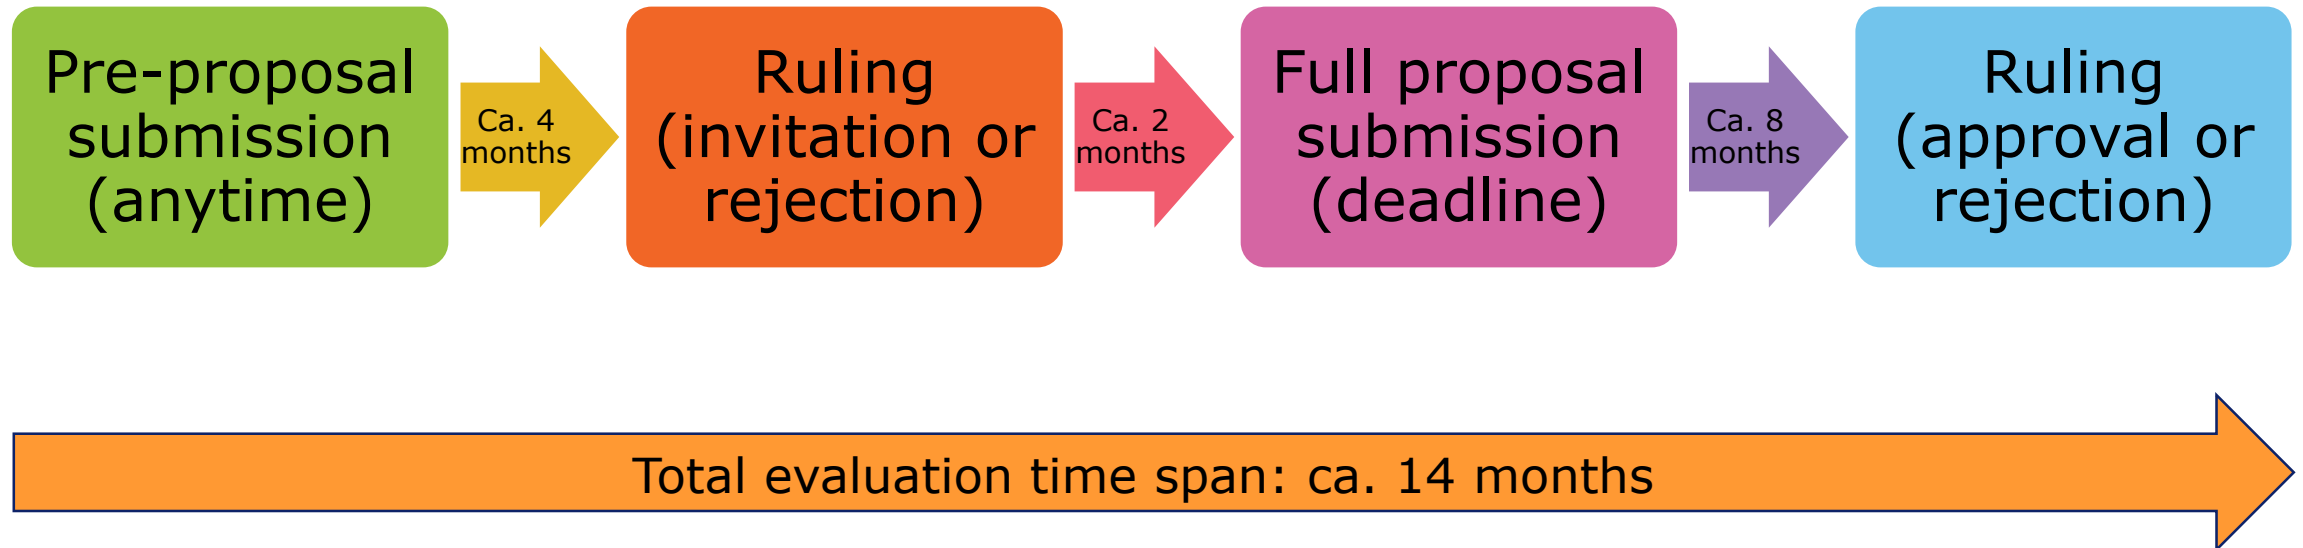

# Submission

- Pre-proposals: anytime
- If pre-proposal is rejected: all applicants are barred from submission for 6 months
- If pre-proposals is assigned to one of the three lowest ranking categories out of six: all applicants are barred from submission for 18 months
- Full proposals: upon invitation after approval of the pre-proposal

# Evaluation time span

# SPIRIT
