Complete the funding portfolio

BRIDGE governance

* SNSF Presiding Board of the National Research Council

** Innosuisse Board of Directors

Overall responsibility

SNSF Presiding Board, Innosuisse Board of Directors

Program-specific functions

- Steering Committee
- Evaluation Panels

Advisory function

Stakeholder Group

Administrative support

BRIDGE Office (supported by SNSF & Innosuisse)

Goal of the **program**

« Turn scientific results into economic or societal innovation »

BRIDGE...

- ... fosters the economic and social potential of scientific research,
- ... supports projects in the critical precompetitive phase that have a clear vision of potential application,
- ... facilitates cooperation between Universities, ETHs, research institutes, and Universities of Applied Sciences, Universities of teacher education.

Two lines of funding

Proof of Concept

- Scientific results developed into a product or an application
- Young researchers on their way to entrepreneurship or willing to implement their research findings with an economic or social partner
- Open to all types of innovation

Discovery

- Interaction between basic and applied research to realise the innovation potential of scientific results
- Importance of the societal and economic impact
- Projects may cover any type of innovation or research field

Proof of Concept

Proof of Concept

Details of the funding scheme

Eligibility criteria for the applicants

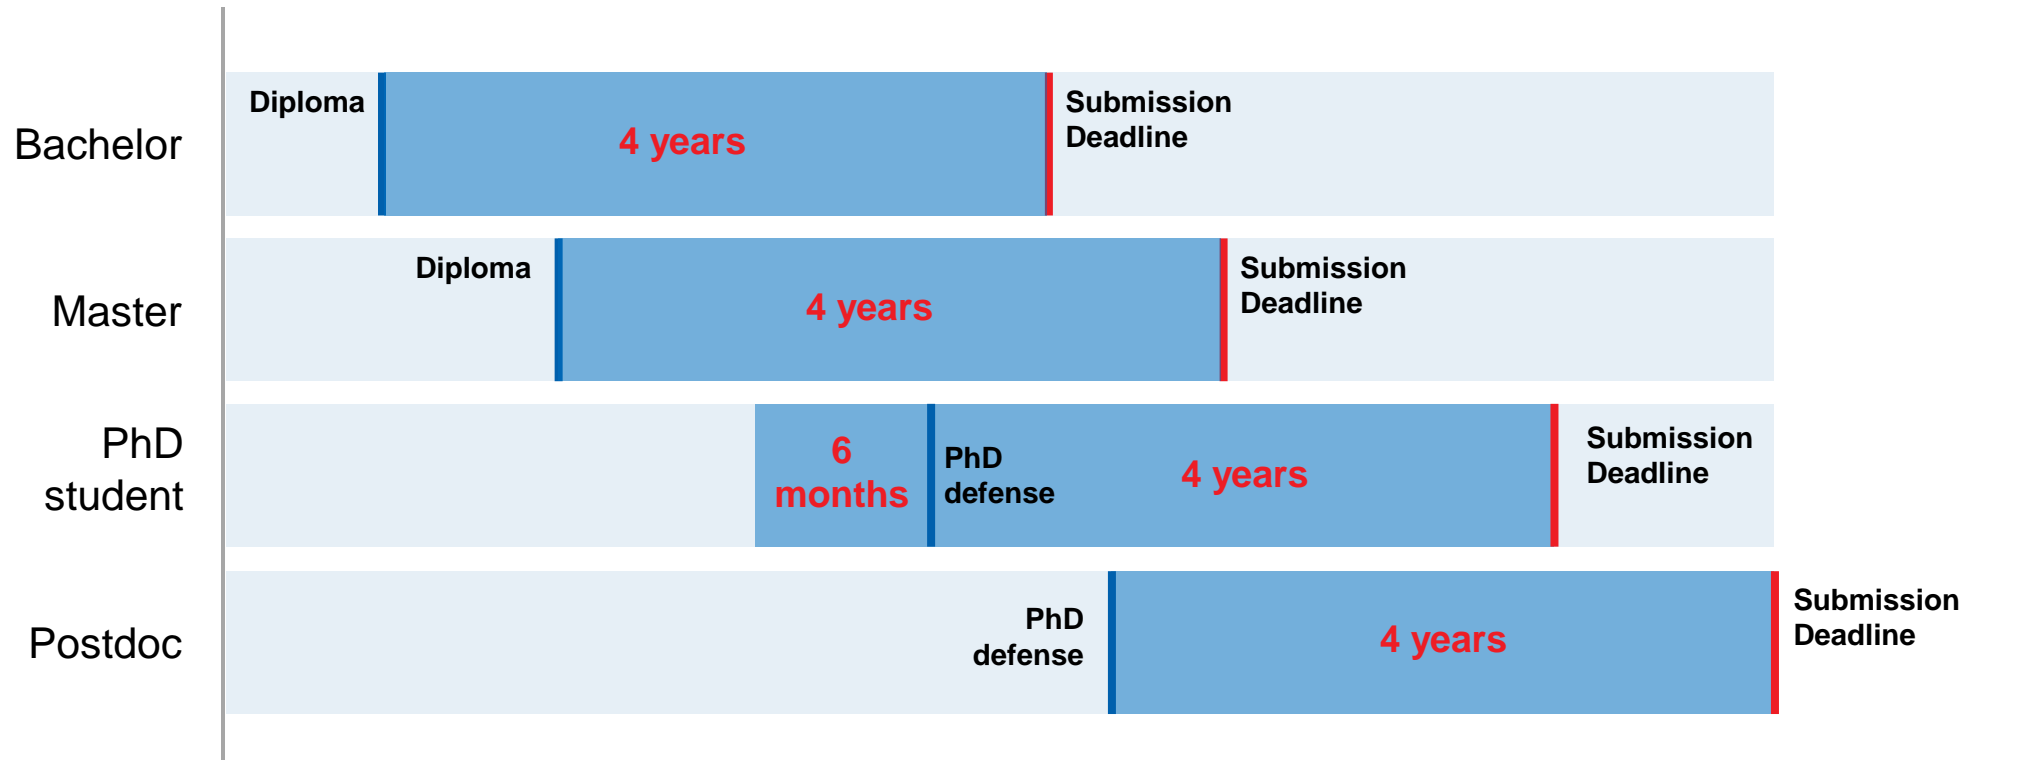

- Early stage of career (bachelor's or master's degree, doctoral students, PhD degree obtained within the last four years)
- Support by a Swiss research institution
- Applicants dedicate their full time to the project

Requirements for the project

- Based on the applicants' own research results or on research results they have substantially contributed to
- The underlying science has been peer-reviewed or documented by publications or another record of achievement (e.g. bachelor's, master's or doctoral thesis, scientific publication, patent)
- Projects may cover any type of innovation or research field

Requirements for applicants

Eligibility windows

Proof of Concept

Details of the funding scheme

- Up to 4 calls per year
- Projects are submitted by a single applicant

Eligible costs

- Budget of project: max. 130'000 CHF per year
- 100% of applicant's salary (calculated on the basis of current rates at the host institution)
- Costs directly related to the realisation of the project

Duration

12 months (extension of up to 6 additional months exceptionally possible)

Overhead

max. 15% overhead paid to the host institution

Proof of Concept

Details of the funding scheme

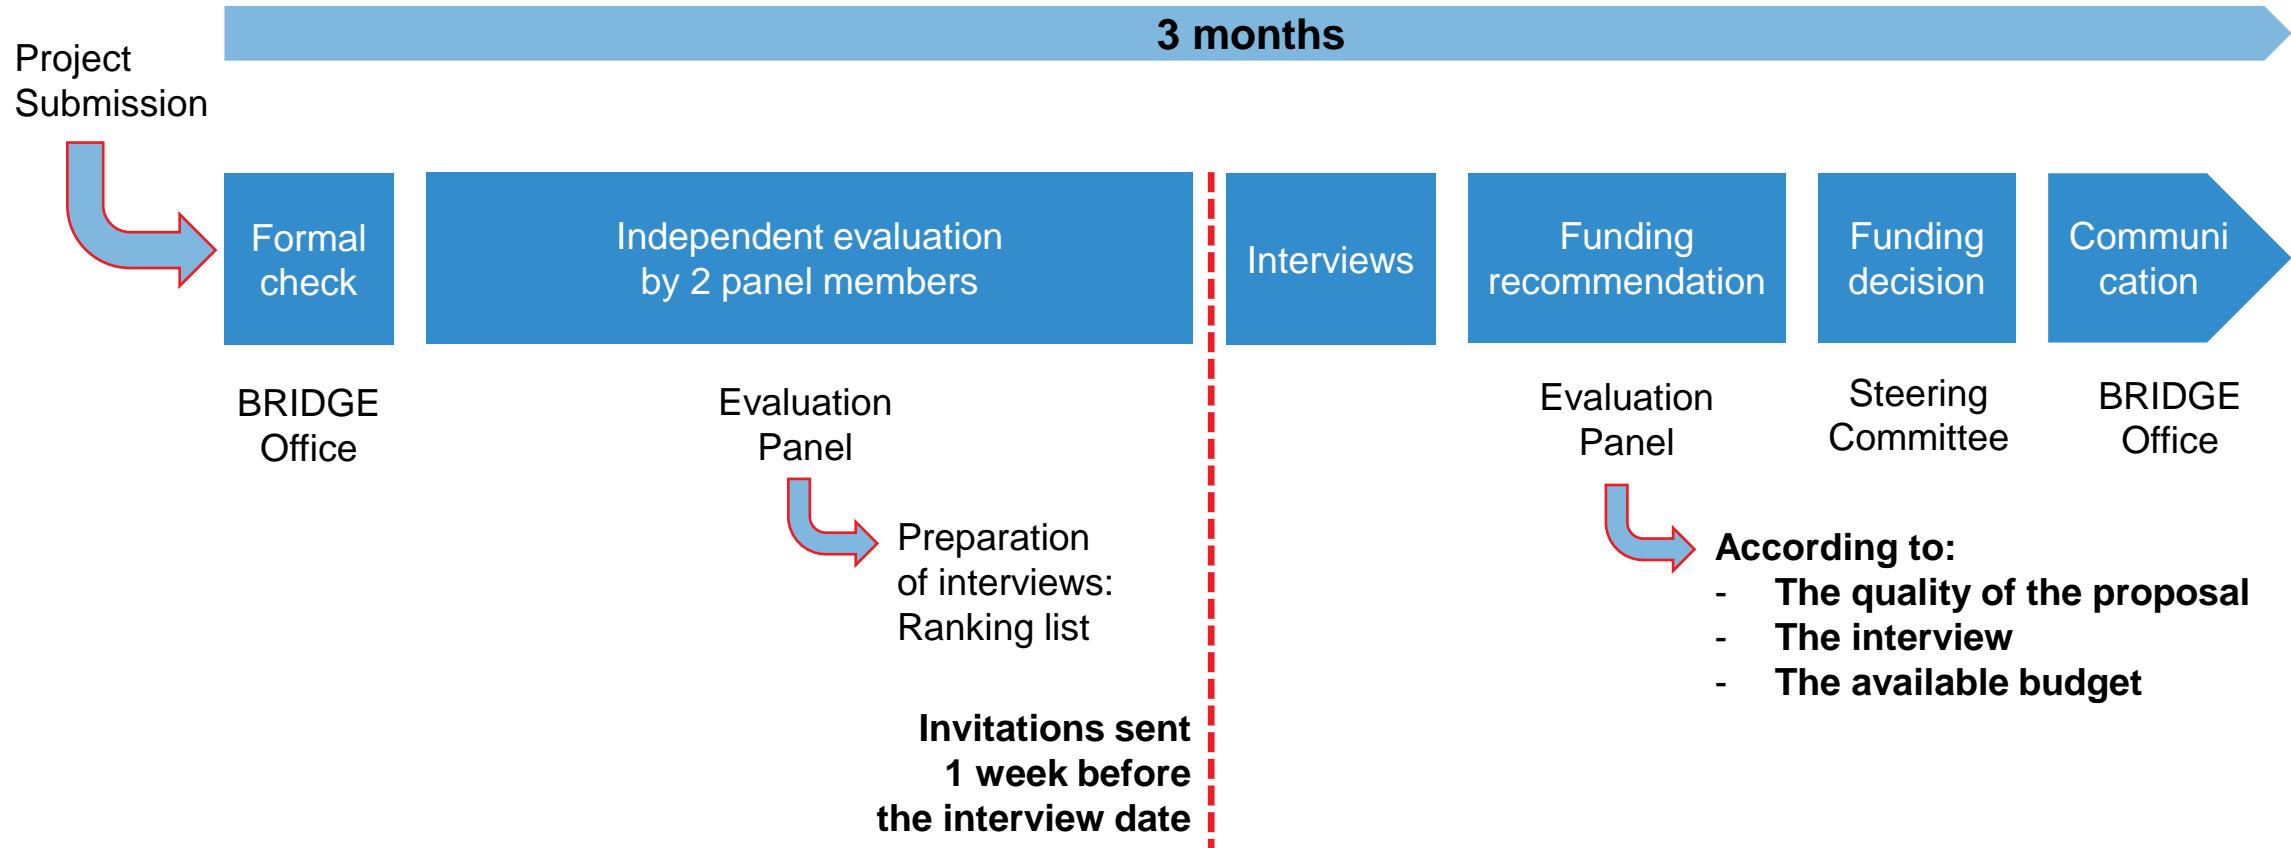

Evaluation criteria

- Expected **economical or societal impact** for the envisioned innovation, product or service
- **Feasibility of project** and the **implementation scenario**
- Appropriate level of innovation-based, entrepreneurial and managerial **competences of the applicant, and motivation to implement**

Evaluation procedure

- Evaluated by the Proof of Concept Evaluation Panel
- Two levels:
 - evaluation of submitted documents (project)
 - interview of the applicant
- Decision within 3 months

Proof of Concept Evaluation Process

Proof of Concept Application

A good application is...

Concrete

- Clear base of research/scientific results exists
- Market and/or societal interest exist; product, application or service has been defined
- Access to the market/end users and/or implementation partners has been described

Clear

- Innovative content is clearly indicated
- Project plan is comprehensible
- Tasks are clearly defined and meaningful
- Milestones are reasonably set and goals are quantitatively described

Consistent

- Project planning and financial planning are consistent
- Timetable and resource allocation are realistic

Proof of Concept Application

Dos and Don'ts

Dos

- Provide an answer to the problem (start from the end)
- Follow the structure of the template (do not leave blank)
- Support your statements with facts and figures
- Know and follow the evaluation criteria (self-evaluation)
- Start early (necessary documents and signatures, proofreading)

Don'ts

- Focus only on the scientific part
- Neglect “impact” and “implementation”
- Hope for exceptions to the rules

Proof of Concept Application

If you are not successful

Important

- Carefully read the decision letter
- If you have questions, ask the BRIDGE Office to clarify

Can you improve your application?

- If rejected, you can apply a second time for the same project, provided you still meet all the formal requirements
- List and explain the changes made to the former version of the project

Proof of Concept Support

Proof of Concept

Additional support

BRIDGE support

- A coaching limited to 10 h is offered to all BRIDGE fellows
- BRIDGE Fellows can request an [assisted patent search for research and innovation](#)

Innosuisse support

- BRIDGE Fellows can take part in the Innosuisse [Start-up Training](#) programme, from Module 2 onwards
- Through the Innosuisse [Start-up Coaching](#) programme, start-ups can attend specialist international trade fairs either as visitors or exhibitors

SNSF support

- BRIDGE provides SNSF's [Flexibility Grants](#) to help researchers better balance their childcare responsibilities with their scientific work and academic careers
- BRIDGE supports career development and network building for the next generation of female researchers through the SNSF's [Gender Equality Grants](#)

BRIDGE Status 2017-2023

Proof of Concept Current Status

Submitted and accepted projects

Proof of Concept **Current Status**

Submitted/funded projects by institutions 2017-2023

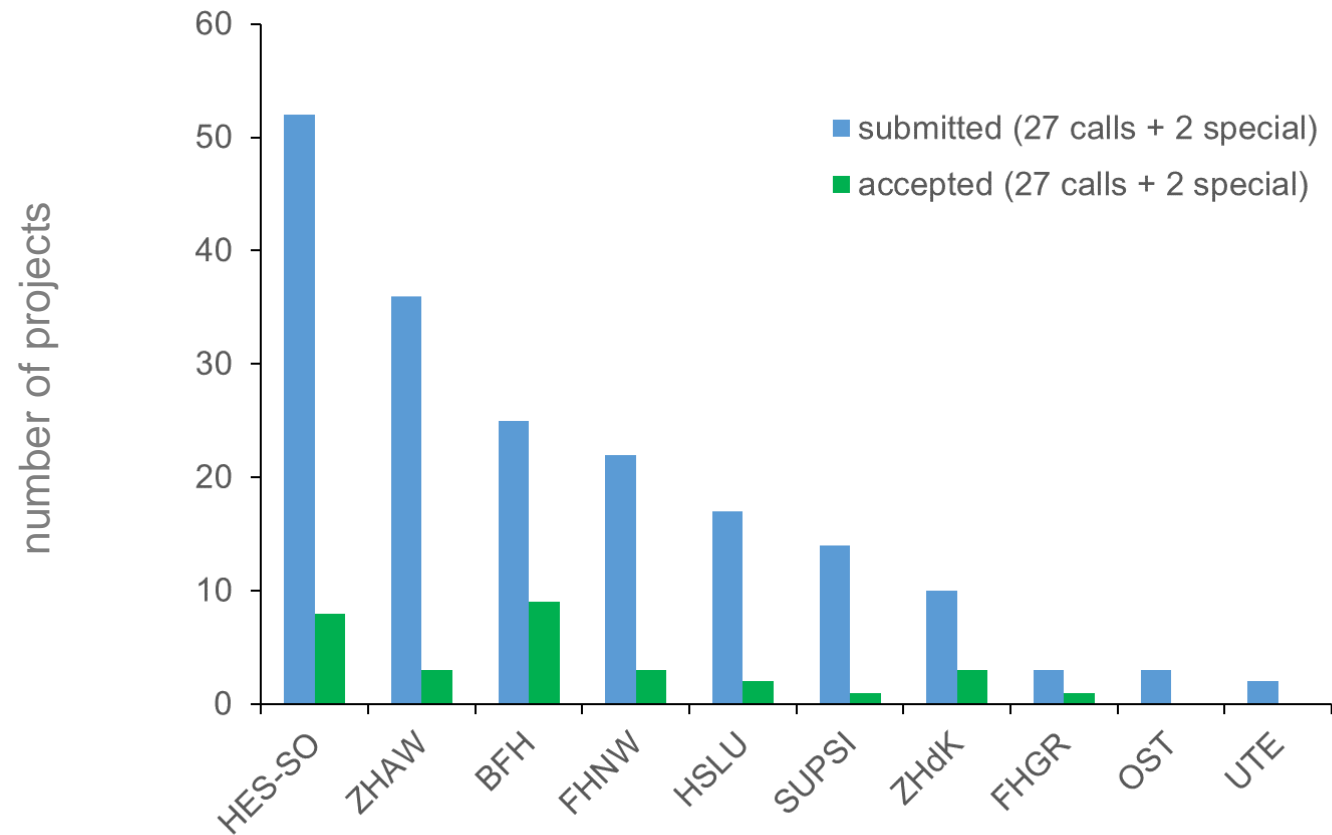

Success rates

ETH domain	28%

Proof of Concept Proposal

Proof of Concept

How to apply?

www.bridge.ch

- **Proof of Concept**
- **Section Documents:**
 - ⇒ Regulations
 - ⇒ Checklist
 - ⇒ Template for project description

<https://www.mysnf.ch/newuser.aspx>

- **Section Registration** if you are a new user

Proof of Concept

How to apply?

- **Creation of the mySNF account at least one week before the deadline**
- **Take the time to prepare all the requested documents and information:**
 - Commitment letter from the future host institute (*template*)
 - Reference Letter
 - Your CV (following the [standardised template](#) on the **SNSF Portal**)
 - CV of the Head of the host research group
 - **Project description** (*template*)
 - **IP overview** (*template*)
 - Etc. (cf. checklist and mySNF)

https://www.snf.ch/media/en/DZdaIIZws1UxpN9N/BRIDGE_PoC_checklist.pdf

Proof of Concept

Intellectual Property (IP)

Overview of the ownership of existing Intellectual Property rights to research results

- Potential for a patent application?
- Patent search already performed?
- Patent already filed?
- Any other IP rights?
- Owner/agreement on the IP?

Proof of Concept

Project Description

1. Summary

2. Project Description

2.1 Research background

2.2 Innovation potential and market review

2.3 Description of the project and Implementation strategy

2.4 Project plan, milestones and deliverables

2.5 Commitment to a sustainable development

6 pages

Bibliography

Proof of Concept

Project Description

2.1 Research background

2.2 Innovation potential and market review

- In what way is your idea innovative?
- What is the expected impact of your idea on the market or society?
- How can your innovation offer the economy a competitive advantage and benefit society? What is its potential “unique selling proposition”?
- *If applicable*, what is your strategy in terms of intellectual property?
- What are the possible market outcomes?

Proof of Concept

Project Description

2.3 Implementation strategy

- How do you intend to achieve the proof of concept?
- How do you plan to bring your idea to the market or society or to actors who will implement your results?
- What are the main challenges expected to face with regard to implementation strategy and partners?
- If you are planning to found a start-up company, how advanced are your plans in this respect?

Proof of Concept

Project Description

2.4 Project plan

- What needs to be done during the project to achieve your goals?
- What challenges are expected? How do you plan to respond to them?
- Project plan with clear milestones and deliverables
- Are the presented measures feasible and realistic within the timeframe of the funding period?
- What will be your future role?

2.5 Commitment to a sustainable development

- How the project contributes to a sustainable development (i.e. societal, economic, environmental impact)? [Guidelines](#)
