

hes. so ingenious.

The University of Applied Sciences and Arts Western Switzerland Valais (HES-SO Valais-Wallis) has over 2,800 students. Through research and innovation, it contributes to economic and social development and the creation of jobs. The new Energypolis campus, home to the School of Engineering, EPFL and modern start-ups, is an innovative ecosystem for education and research. Why not come and join us!

The School of Engineering is looking for a:

UAS Professor in Bioanalytical Chemistry

Your mission

- Teach analytical and bioanalytical chemistry at Bachelor and Master level
- Establish a strong, externally funded research program in bioanalytical sciences and contribute to the Institute's expertise in bioanalytical chemistry
- Develop and apply analytical methods to biological applications, specifically mass spectrometry for the analysis of proteins
- · Guide staff on the development of analytical methods and procedures
- Establish and maintain a network with industry professionals for the benefit of the Bachelor/ Master degree programs and research

Your Profile

 $\Sigma \pi \approx \&$

- · PhD in analytical chemistry, biochemistry or similar
- Strong knowledge and skills in development of analytical and bioanalytical instrumental methods and characterization of biomolecules
- In-depth knowledge in the field of qualitative and quantitative analysis of peptides and proteins
- Experience in the pharmaceutical or biotech industry concerning analytical development in the field of bioanalytics
- Strong R&D project management experience
- · Excellent communication, interpersonal skills and ability to work in a team
- Excellent knowledge of French, German, English

Employment	80 - 100%
Place of work	Sion
Starting date	to agree
