

## Operational Excellence Trainee (6 months) - Geneva

OM Pharma positioned itself as a local player to support students and young graduates in their first working experiences. We are therefore pleased to offer a 6-month internship starting ideally from April 2023 (according to your availability) within our Operational Excellence team, based at our headquarters and biotech production site in Geneva. This is the perfect opportunity to gain experience in a pharmaceutical company and apply your knowledge of Lean Management.

Reporting to the Head of Operational Excellence your tasks and responsibilities will include, but not be limited to, the following:

- Apply Lean approach to a subject (DMAIC format)
- Support teams and communicate in projects
- Support the departments on the implementation of Lean tools (Visual management, 5S, problem solving, work standards)
- Support the deployment of operational excellence on site

For this position, we are looking for the following profile:

- **Student with contracted internship - school agreement mandatory**
- Higher education (HES Engineer, Master and/or Bachelor) in Pharmaceutical Sciences, Industrial Systems Management or similar
- Good knowledge of the pharmaceutical industry and Lean/6-Sigma methodologies
- Fluency in French with good English skills
- Proficiency in use of MS office (Excel, PowerPoint, Visio)
- Experience in biotechnology is a plus, as is an appetite for new technologies (Industry 4.0)

You are a rigorous person and autonomous in your work. Endowed with an entrepreneurial spirit, you know how to manage different cross functional stakeholders. You like to take a step back to analyze situations and propose new strategies. You define yourself as a solution-oriented and methodical person who drives novelty. Thanks to your communication skills, entrepreneurship and strong team spirit, you integrate quickly into a new environment and easily establish collaborative links with other departments.

Are you looking for an empowering internship where you can implement real actions and participate in the development of an innovative company? Apply as soon as possible and join OM Pharma!
