

## Internship title : Regulatory Compliance Internship

### Who we are:

Merck is a leading science and technology company in healthcare, life science and performance materials. Around 54,000 employees in 66 countries work to further develop technologies that improve and enhance life – from biopharmaceutical therapies to medical devices that support people living with chronic diseases. Merck is in charge of the development of many medical devices for the delivery of drugs.

### Your role:

We offer 6 month internships within Regulatory compliance department of Merck Serono, Aubonne. The Main tasks are :

- Participation to the Quality and Regulatory documentation practices related to the manufactured and tested products such as Site registration, Health Authority Paper inspection
- Support to the Regulatory Product Experts. Follow-up on regulatory submissions and health authority approvals of changes.
- Coordinating the provision of regulatory deliverables to support regulatory submissions
- Update the Site Master File, a document summarizing all ongoing activities in Aubonne, in close collaboration with the different departments on site

### Your profile:

A relevant diploma in Life-science (Master)  
Knowledge in Biotechnological sciences is a plus  
Fluently spoken and written English and French (native mother tongue)  
Good editorial and communication skills  
Autonomous

### What we offer:

Merck's portfolio extends from liquid crystals for displays and pigments for automotive coatings to cancer treatments; this offers a lot of possibilities to develop in our growing company. As a stock-listed company we still make history – especially because we take responsibility for our employees, our products, the environment and the society we live in. We offer a modern and international working environment to unleash your innovative potential.

Ready to take on this challenge? Send your CV and cover letter, mentioning the internship reference number, to [charlotte.berenguer@external.merckgroup.com](mailto:charlotte.berenguer@external.merckgroup.com)

*Please note that only candidates currently undertaking their studies are eligible for an intern position. An Internship Agreement will have to be issued by your school. Only applicants fulfilling this criteria will be considered.*
