

Mechanical Engineer

 Lunaphore Technologies SA

 Tolochenaz (Vaud), Switzerland

Job title: Mechanical Engineer

Reports to the: VP Instrument Development

Activity rate: Full-time

Type of contract: Fixed-term

Start date: 01.10.2021

Duration: 6 months

About our company

Lunaphore Technologies is a young scale-up active in the Life Sciences field developing products based on a microfluidic technology to analyze tissue samples in immuno-oncology research. Lunaphore is seeking a highly motivated candidate to join our team and contribute directly to the development and growth of the company.

Job overview

We are looking for a Mechanical engineer to strengthen our Research and Development team. The key mission is to assemble, test and troubleshoot prototypes produced for R&D purposes.

Responsibilities and duties

- Assemble prototypes aimed at development activities, at field testing and at pilot sites.
- Suggest improvements on the prototype design, in particular regarding design for manufacturing.
- Proceed with the tests of the prototypes and of their sub-assemblies in collaboration with the R&D team.
- Document the assembly and test processes by creating assembly guidelines.

Required qualifications

- BSc in mechanical engineering or equivalent
- Experience in the assembly of complex instruments a plus
- Good level in English (at least B2)

Required soft skills

- Organizational skills and attention to detail.
- Ability to interact and work in a team.
- Capacity to adapt in a constantly changing environment.

We offer

- A young and strong-growing high-tech company.
- A diverse and international working environment with a strong network.
- A highly interactive team with strong personal and technical qualities.
